A desk accessory unrivalled for its sleek and polished look, this beautiful diecast Mercedes atop a classic base with chrome plate will grab anyone's attention.

Symbolism in designs is a creative way to showcase a deal. By placing a larger shopping bag inside a smaller shopping bag, we demonstrated the purchase of a larger company by a smaller.

A striking piece for its utilization of depth, design, and mediums, this marble, crystal, and lucite tombstone showcases the versatility of our designing and manufacturing capabilities.

Movable pieces are always a big hit, and we can design numerous ways to do this. The Verizon lucite has a removable cube, and the Equinox deal gift flips to your side of choice.

This beautiful wooden wine box contains five miniature bottles of fine wine; each bottle is decorated with a custom-made label designed to showcase the deal. The box is red mahogany and the wine bottles are protected with a thin sheet of lucite displaying the Merrill Lynch bull and a slogan about the deals.

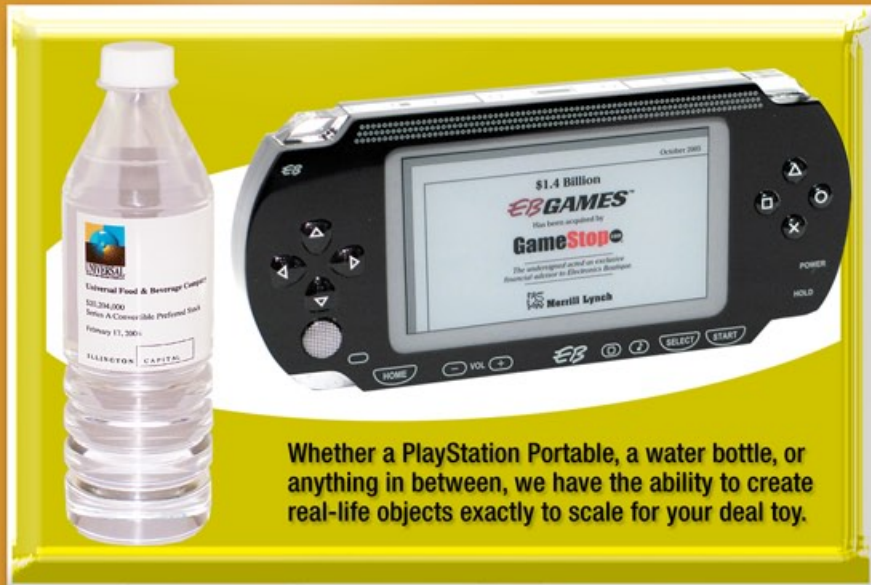

These two pieces highlight the logos of the client by creating them in 3D plexi. The shape and color of these two plexi logos make the pieces truly unique.

We offer a wide range of standard-shaped tombstones.

Miniature versions of real-life items are a fun way to commemorate a deal.

Whether a PlayStation Portable, a water bottle, or anything in between, we have the ability to create real-life objects exactly to scale for your deal toy.

No detail is left unaddressed when we design. Adding working hinges to this miniature newspaper box creates a fun deal gift with a front that opens to a digital print of a newspaper inside.

Thank You!

We would like to take this opportunity to thank all of our clients for helping us become the premiere deal toy company in the world. We value your trust and support, and in turn, we always put forth maximum effort to meet your every need. Again, we thank you – it has truly been a pleasure, and we look forward to working with you on your next deal gift.
